TOYO INK'S 24/7 COMMERCIAL SHEETFED INK 'DOES IT ALL'

ADDISON, Ill. — The 24/7 Commercial Sheetfed Ink from TOYO INK is so versatile, it may be the only sheetfed ink a printer needs. This all-purpose, high-gloss ink does it all — from general commercial printing with inline coating to demanding specialty work that involves offline surface finishing.

24/7 ink improves pressroom productivity by providing precise color reproduction under a wide range of applications. It is easy to manage on press and reduces the need for multiple sets of ink.

24/7 ink delivers consistently high performance with inline varnishes and aqueous coatings. It readily accepts inline and offline ultraviolet (UV) coatings. It is ideal for other offline applications, such as hot foil stamping and lamination. It also is completely laser safe.

TOYO INK America offers 24/7 Commercial Sheetfed Ink in a medium-tack formulation. It is packaged in 5-pound cans.

TOYO INK America will feature 24/7 Commercial Sheetfed Ink in Booth #2406 at
Graph Expo & Converting 2006, October 15-18 in Chicago's McCormick Place.
